1/ It should be noted that the election not to pool milk normally associated with an order due to a disadvantageous price relationship affects the comparability of this statistic. See footnote on Table 17. Figures shown for All Markets Combined and AVERAGE are computed from the applicable monthly or year-to-date totals of producer milk used in Class II and total producer milk.

2/ Effective May 1, 2006, the name of the Federal order was changed. Clark County, Nevada which includes Las Vegas, was removed from the marketing area.
